

Carina Stöttner

Carina Stöttner's life revolves around the day after tomorrow on a daily basis: as a futurologist, Carina Stöttner focusses on how our world will be shaped in over 10 years' time. At the age of 27, Carina Stöttner founded the think tank Themis Foresight, which has since developed into one of the leading corporate foresight boutiques in Europe. Together with her team, she develops future scenarios, studies and strategic visions of the future for family businesses, hidden champions and large corporations throughout Europe. While many organisations base their decisions on past data, Themis Foresight enables companies to think multiple futures...
