

# Dr. Matthias Brendel

Dr. Matthias Brendel is fascinated by the possibilities of new technologies in connection with sustainability. He completed his studies in environmental engineering at the University of Bayreuth and obtained his doctorate with a dissertation on the CO2 reduction of petrol engines at the Technical University of Munich. At the beginning of his professional career, Matthias Brendel made a name for himself in the automotive industry by specialising in increasing the efficiency of combustion engines. He later shifted his focus to sustainable approaches for new business models. This led to the founding of his start-up, Footprint Technologies, which is characterised by...
