

Surgeon, Founder & Author, Expert in next generation healthcare, Female Empowerment

Dr. Johanna Ludwig

Dr. Johanna Ludwig is a trauma surgeon, founder, author and thought leader for the future of medicine. She combines medical expertise with innovation and is considered a pioneer in this field. Her professional career has taken her to renowned institutions around the world, including Boston Children's Hospital, as well as to locations in the furthest corners of the earth. For example, on the Pacific island of Kiribati, where she acquired both her medical expertise and deep insights into human nature. Her impressive professional career is characterised by versatility: In addition to her work as a surgeon, she is also active...
