

Christian Lindner

Christian Lindner is one of the top speakers in Germany. He provides his audience with insights into economic and political developments in Germany, Europe and the world. Christian Lindner combines leadership experience in politics with economic policy expertise and entrepreneurial understanding. He draws his current assessments from his experience as finance minister of the world's third largest economy and his dense network in government, business and academia. Christian Lindner Lecture Topics The global shifts in politics, business and finance Digitalisation, bureaucracy, energy policy, economic turnaround: Are we missing the future? Germany's competitiveness in global competition The German budget and European...
