

Prof. Klisman Murati

As the founder and CEO of Pareto Economics, Klisman Murati leads one of the world's foremost companies for strategic analysis and future planning. With his proprietary analytical tool, the Global Power Index (GPI), he evaluates 194 countries across six core dimensions of national strength. The GPI is used by international institutions, global corporations, institutional investors and government bodies to assess risks more precisely, identify opportunities and make well-founded strategic decisions for the future. As a keynote speaker, Klisman Murati is known for clarity, originality and unexpected perspectives. Each keynote is tailored to the specific audience. He doesn't just inform –...
