Climate researcher, Climate scientist & Professor of Climate Physics at ETH Zurich

Prof. Dr. Reto Knutti

Reto Knutti is a climate physicist and full professor of climate physics at ETH Zurich. After completing his PhD in physics in 2002, he spent several years conducting research as a postdoctoral fellow and visiting scholar at the National Centre for Atmospheric Research (NCAR) in Boulder, Colorado. In 2007, he joined ETH Zurich as a professor. His research focuses on the global climate system and, in particular, on how human-induced greenhouse gas emissions are altering the climate. To this end, Prof. Dr Reto Knutti combines an understanding of physical processes with observational data, climate models and statistical methods. Through his…
