

Benjamin Bargetzi

AI pioneer, neuroscientist, mountain runner and transformation expert – Benjamin Bargetzi is a border crosser of many worlds who has become internationally recognised as a pioneer of future technologies, innovation and artificial intelligence. An expert for visionary, big thinking but also for very concrete, detailed hands-on tips and tricks. Despite his young age, Benjamin Bargetzi has been one of the leading figures in artificial intelligence, the trends of the future and their impact on our brains for more than ten years. He is one of the top 30 most booked thought leaders, keynote speakers and AI experts in Europe. As...
