

Harper Reed

Harper Reed is a technologist that predicts the future for a living. He spends his life traveling around the world showing people the possibilities of tech and sharing his experiences to propel the greater good, all while raising the level of fun in the room. Harper knows his incredible luck has led him to achieve many wonderful things. At PayPal, his roles as Head of Commerce and as an Entrepreneur-in-Residence allowed him to guide teams into the thrilling future of e-commerce. The technology he developed as co-founder at startup Modest Inc. had initially garnered the attention of PayPal, which led...
