

Sabine Oberhuber

Sabine Oberhuber is an expert on economics, sustainability, climate and environment, innovation & circular economy. Sabine Rau-Oberhuber is one of the first pioneers of the circular economy and co-founder of Turntoo, a Dutch service company focused on achieving a circular economy. She has developed some of the first business models and strategies for the circular economy and has helped shape thinking about the transition to a circular economy. Turntoo works with manufacturers and advises clients to promote new processes and methods to reduce or eliminate material waste. The company also assists municipalities with circular city strategies and area development. Sabine Oberhuber...
