

David Katz

David Katz is the founder and CEO of Plastic Bank, an internationally recognized organization dedicated to solving ocean pollution. Plastic Bank is a global network of micro-recycling markets that empowers communities to overcome poverty by eliminating environmental problems. It is an ecosystem that enables the world to collect plastic waste and trade it as currency. Global partners include IBM, Shell Energy and Henkel. David Katz Lecture Topics: Social Entrepreneurship: Triple bottom line business. Doing well while doing good. A new tide. The rising consumer movement to do good. Oceans: The surprising solution to ocean plastic Entrepreneurship: From idea to multinational....
