

Jens Korte

The relationship between Europe and America has seen better times. But the U.S. remains the locomotive for the global economy. Jens Korte has been reporting from New York since 1999. That was in the midst of the Internet boom. Then the technology bubble burst and the USA slid into recession. The Global Turning Point – World Economy and Financial Markets in Transition The terrorist attacks in 2001, the boom in the financial markets, the scandals in the 2000s, the big crash in 2008, the following upswing, the energy boom and crash, the election of Donald Trump!: Jens Korte followed these...
