Space Scientist, Astrobiologist & Inventor

Dr. Florian Kehl

Dr. Florian Kehl is a space scientist at the University of Zurich and a lecturer at the Lucerne University of Applied Sciences' Space Biology Group. He used to work as a technologist at and with NASA's Jet Propulsion Laboratory for almost 7 years. He has a multidisciplinary background both in science and in technology development, in academia, federally funded research centres and industry. His expertise is in the fields of integrated optical sensing, laser and diffractive optics, in-situ instrument development for planetary exploration and astrobiology, systems engineering, fluid handling, and verification and validation in analogue environments. Dr. Florian Kehl lecture…
