

Dr. Johanna Pirker

Dr Johanna Pirker is an experienced speaker for digitalisation, gamification, digitalisation and the future. She loves to talk about her passion and has already been a guest speaker at TEDx or GDC, among others. She works as Ass. Prof. at TU Graz and heads the Game Lab Graz research group. She researches games with a focus on AI, HCI, data analysis and VR technologies. She is also an active and strong voice of the local indie developer community. Johanna Pirker has many years of experience in game development and brings a lot of knowledge to the field of VR in...
