

Expert on Artificial Intelligence, Scientist & Pioneer

Prof. Dr. Thilo Stadelmann

Thilo Stadelmann is a distinguished professor of artificial intelligence and machine learning at the ZHAW School of Engineering in Winterthur, Switzerland. There, he serves as head of the Centre for Artificial Intelligence and steers the research group “Computer Vision, Perception & Cognition”. Additionally, he is one of the co-founders of Alpine AI, a promising start-up developing and implementing Swiss GPT for enterprises. His academic journey first led Thilo Stadelmann to study computer science in Giessen and Marburg. In 2010, he earned his PhD in Natural Sciences from Philipps University in Marburg with a dissertation on multimedia analysis and voice biometrics....
